September 2009

Dear Parent/Carer

NatWest Bank Accounts

We are working with our local NatWest to set up *School Money*, a school bank service run by and for students at our school and will be operational from September.

The service will allow students to open a real NatWest bank account suitable for their age at school and to bring money into school to pay into their account. To withdraw money they will need to visit a local branch or visit an ATM.

The *School Money* service provides students with first hand experience of managing money. It provides the foundation for the continued experience of having a bank account and managing their own finances.

School Money is part of *Moneysense for Schools*, a financial educating programme that aims to teach personal money management and enterprise skills to students in schools. Students' details will not be used by NatWest to provide data for any future marketing.

If you would like your child to open an account with NatWest, please complete and return the form below to the Finance Office.

Yours sincerely

Mrs Comfort
Business Manager
